***Acknowledgement***

Receipt is acknowledged of the Amendment filed September 6, 2005.

***Reasons for Allowance***

Claims 1-8, 10-17, 19-23, and 25-29 are allowable over the prior art of record.

The following is an examiner's statement of reasons for allowance: the best prior art of record, Prodanov, taken alone or in combination of other references, does not teach or fairly suggest a method or a low voltage, 5V tolerant buffer comprising, among other things, an input stage driven by a node between said central transistor and said lower transistor (claims 1, 14, and 20); a bias generator comprising an output being connected to a gate of said upper transistor and a series connection of two transistors between said power supply and said PAD (claims 26 and 29), as set forth in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
